Bubble pockets – flaps variant to choose

Available for the each of kind and format:

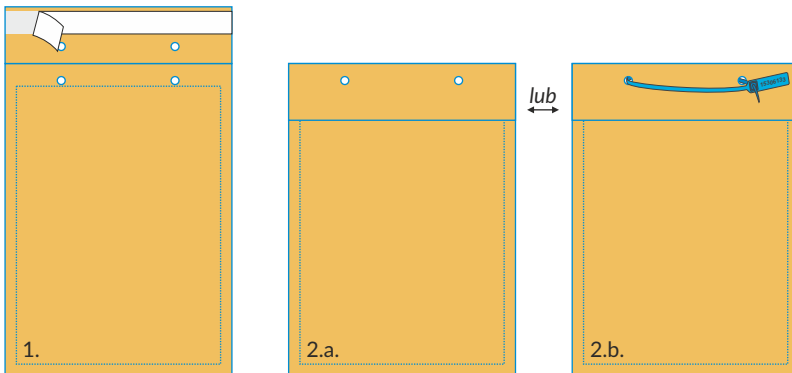

Worth knowing!

Variant A – straight flap – pocket without holes for leaden seal.

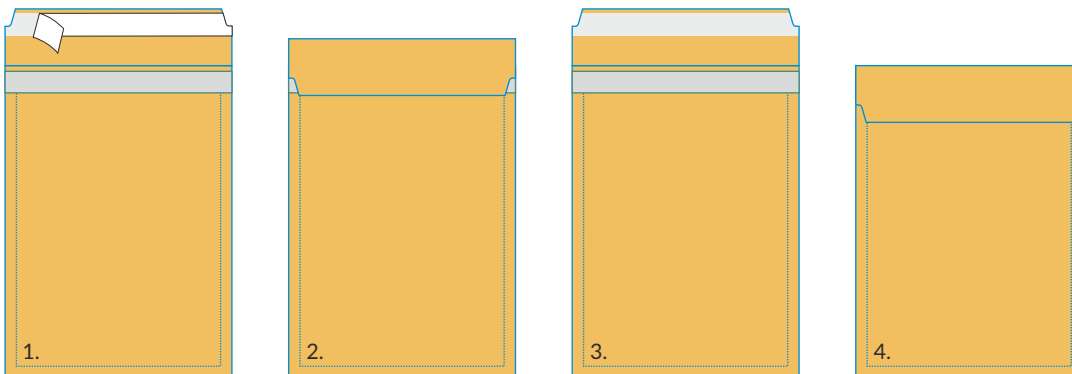

Possibilities of the variant A: **the packer** unglues HK strip 1. And closes flap 2., the glue seals the pocket permanently.

Variant B – straight flap – pocket with holes for the leaden seal.

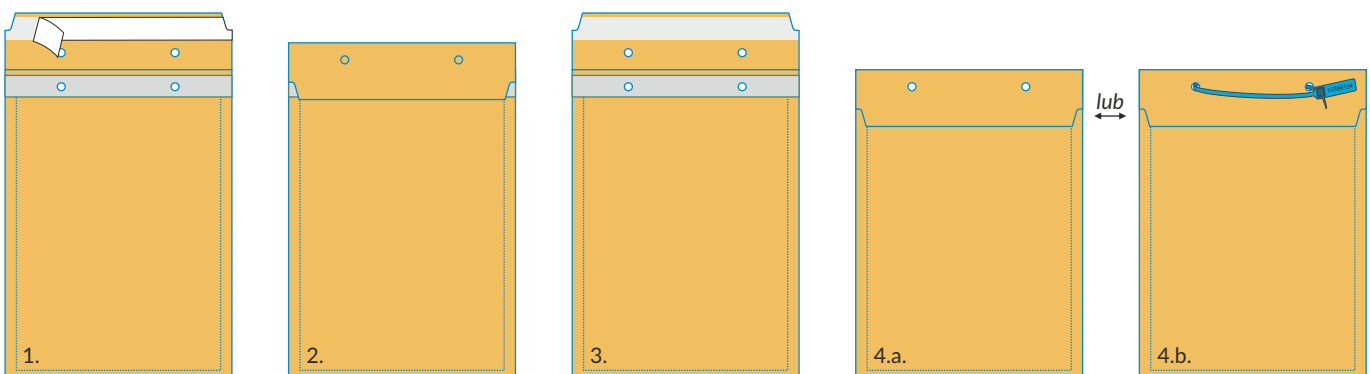

Possibilities of the variant B: **the packer** unglues HK strip 1. And closes flap 2.a., the glue seals the pocket permanently. **The packer** can use the leaden seal, but he doesn't have to use it 2.b. (holes on the flap don't increase the price).

Variant C – trapezium flap – pocket with control strip – without holes for the leaden seal.

Possibilities of the variant C: **the packer** unglues HK strip 1. and closes flap by gluing it to the strip control, the glue doesn't seal pockets permanently 2., **a person checking** the correctness of packing the goods unglues flap from the control strip 3., checks content and closes flap, the glue seals pocket permanently by gluing to the paper 4.

Variant D – trapezium flap – pocket with control strip – with holes for the leaden seal.

Possibilities of the variant D: **the packer** unglues HK strip 1. and closes flap by gluing it to the strip control, the glue doesn't seal pocket permanently 2., **a person checking** the correctness of packing the goods unglues flap from the control strip 3., checks content and closes the flap, the glue seals pocket permanently by gluing to the paper 4.a. **checking person** can use the leaden seal but doesn't have to use it 4.b. (holes on the flap don't increase the price).

Strip HK – strip protects the glue against

Trapezium flap – cuts facilitate by ungluing flaps from polyester control strip.

Control strip – allowed to unglue flap without destroy flap and glue.

Holes for the leaden seal – the standard formats bubble pockets A/11, B/12, C/13 and unstandard formats with width till 15 cm have 1 hole. Wider unstandard bubble pockets and the rest of the standard formats have 2 holes for the leaden seal. **Attention!** If the order doesn't have information about the holes, the pockets will be made in standard, without holes.

The leaden seal

The leaden seal – constructions available on the market, material from which they are made are diverse, but the purpose of their use is the same. Each of the leaden seal have individual number. It protect against violation and opening by unauthorized person.
